

I currently benefit from listening to XM Satellite Radio and its traffic and weather channels because I drive truck nationwide. XM radio provides variety and quality that are not available elsewhere. Since I voluntarily pay for these services, I feel it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB'S PETITION 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve. Thank you.
